

# TrueChoice™ Commercial Services

Fleets expand, oil prices fluctuate, operating horizons change. But our TrueChoice engine services suite enables us to accommodate any need and operational priority with an unmatched breadth of services and materials.

## TrueChoice Flight Hour

Customized offerings that help you optimize cost of ownership over the entire lifecycle with flexible risk transfer and payment options.

- Full risk transfer engine maintenance
- Dollar per flight hour or cycle

## TrueChoice Overhaul

Time and material worksopes specific to your shop visit objectives, economic priorities, and ownership horizon – whether for one engine or your entire fleet.

- Time and material overhaul
- Dollar per shop visit and scrap rate guarantees

## TrueChoice Material

High-quality new and used OEM parts, advanced repairs and technology upgrades for operators and MROs. It's all part of our commitment to offering more ways to enhance engine performance.

- Material service agreements
- Upgrades

## TrueChoice Transitions

A broad range of options for changing engine ownership horizons.

- Customer worksopes: shorter builds, more used material
- Green time lease, exchanges, consignment
- Lessor integration and portability products
